UPVC WINDOWS & DOORS

## Comparison Between Upvc Windows and Traditional Windows

uPVC windows	Aluminium windows	Wooden windows
Maintenance-free and easy to clean	Low maintenance	Regular maintenance to guarantee great aesthetics and natural beauty
Extremely thermally efficient material	Great thermal efficiency on higher quality aluminium windows	Natural insulating properties (better at trading heat)
Low cost	More expensive than uPVC	The most expensive window option
Low-mid range life expectancy	More robust and durable than uPVC and wooden windows	With proper maintenance they can last a lifetime

### Applications & Use Cases

- Residential homes: Modern apartments, bungalows, farmhouses
- Commercial spaces: Offices, schools, hospitals, hotels
- Renovations: Easy replacement of old wooden/aluminum frames
- Coastal areas: Salt-resistant UPVC ideal for Konkan's climate

### Sustainability & Eco Benefits

- Energy-efficient designs reduce electricity bills
- 100% recyclable UPVC material
- Helps maintain cooler interiors in hot summers
  - Contributes to a greener, cleaner environment

### Safety & Security

- Multi-point locking systems for maximum protection
- Fire-retardant properties for added safety
- Strong frames resistant to break-ins
- Child-safe designs with smooth edges
